Ankara

EDUCATION

2019-2024 University: Hacettepe University, Industrial Engineering, 4th Class (3.43 / 4)
2015-2019 High School: Safranbolu Fatih Sultan Mehmet Anatolian High School, (88.35 / 100)

EXPERIENCE

Quality Department Intern, Erkunt Sanayi A.Ş 20/06/2022 – 22/07/2022

Throughout my internship, I worked at the department of quality. For a substantial amount of time, my work heavily consisted of working in the field. I learned the stages of the production which required me to acquire how to do field control. Furthermore, I prepared an 8D report. My main interest was essentially about the defective products, thus, the types of errors that may occur in the production is a well-known subject to me. In addition to that, I prepared and presented grid reports containing information on the defective products.
