- Advanced level in MS OFFICE
- Python, *Good*
- Matlab, *Good*
- Canva, *Good*
- Minitab, *Good*
- SPSS , *Good*
- Solidworks, *Good*

LANGUAGE SKILLS
- English   B2
- German   A2

📄 PROJECTS

Pricing Automation Robot Project at Otokoç Otomotiv
- Establishing a reference price is crucial during the pricing of vehicles.
- Within the company, this is determined by reviewing the most recent sales and checking the market for comparable vehicles.
- To simplify this process and enhance automation, I developed a pricing module in Python.
- This module extracts data from the maintained inventory report.
- The gathered data is then organized from the latest to the oldest.
- The module incorporates depreciation factors for vehicles.
- This system streamlines the pricing process and boosts automation within the organization.

Dora Makina
Dora Makina is a company that provides services to the aerospace and space industry, as well as the energy and medical sectors.
- Estimated the processing time using PMTS
- Conducted a time study
- Presented a solution that would improve process

🚲 EXTRACURRICULAR ACTIVITIES

- Paragliding pilot at Hacettepe Aviation Society(HUHAT)
- Horse rider at Hacettepe Equestrian Society(HUBIN)
- Member at IEEE HACETTEPE
